[[The Mediator Series]] is about a 16-year-old girl named Susannah "Suze" Simon. Suze is a [[mediator]], whose role is to help ghosts finish their business on earth so they can pass on to the afterlife. To this end, she can see, touch, communicate with, hit, punch, and 'kick ghost butt' when she has to. The series begins just after Suze's widowed mother marries Andy Ackerman, when she has moved to [[Carmel]], [[California]], to live in an old house complete with three stepbrothers. To make matters worse, her bedroom is haunted by an attractive male ghost named Jesse de Silva, who died 150 years earlier. Suze remembers that back in New York a fortune teller had told her that she was a mediator (which proved correct) and that she would only fall in love once but it would last for an eternity. Her one love for eternity just might be Jesse. But does he love her back?

The first four books were originally released under the pseudonym Jenny Carroll (this was when Cabot was working with different publishing houses). 'Haunted' was the first title to have Meg Cabot's name on it. The first four books were later reprinted under Cabot's real name in 2005 with new cover art when 'Twilight' was released in hardcover. The U.K. titles for the series were as follows:
