The image shows a configuration interface for protection levels. A modal window is open, displaying the following elements:

- Header: "admins only"
- Two rows of protection icons (shields) with edit icons (pencil) to their right.
- Field: "end date" with a text input containing "dd.mm.yyyy".
- Three options, each with a shield icon and a pencil icon:
 - edit protection
 - move protection
 - upload protection
- Buttons: "Save Changes" and "Cancel".
- Footer: "delete this protection level" with a trash icon.

Below the modal, a timeline shows dates: 13.06.18, 19.06.18, and 28.10.18. A horizontal bar with a pencil icon spans from 19.06.18 to 28.10.18. A legend on the right explains the icons:

- Shield icon: edit protection
- Shield with upload icon: upload protection
- Shield with move icon: move protection

admins only

The screenshot displays a Gantt chart interface with several task bars. A context menu is open over one of the bars, showing options for 'end date', 'edit protection', 'move protection', 'upload protection', 'Save Changes', and 'delete'. The 'end date' dropdown is currently open, showing a date input field with the format 'dd.mm.yyyy' and a 'period' dropdown menu. The 'period' menu is open, listing options: 'day/s', 'week/s', 'month/s', 'year/s', and 'infinite'. A legend on the right side of the image defines the protection icons: a shield with a pencil for 'edit protection', a shield with a lock for 'upload protection', and a shield with a move arrow for 'move protection'. The Gantt chart shows a timeline from 13.06.2018 to 28.10.2018. A task bar is highlighted with a hatched pattern, and another bar is highlighted with a solid light blue color. A vertical line marks the date 28.10.2018.
