

Select a suggested page

The screenshot shows a dialog box titled "Insert link" with a close button (X) in the top right corner. At the top, there is a warning message: "Warning: changes have not yet been saved!". Below this, the "Target page or URL:" label is followed by a link icon and the text "Page exists". A dropdown menu is open under the "Target page or URL:" field, showing "Deorphanpagemain" as the selected option. Below the dropdown is a text input field containing "Deorphanpagemain". The "Text to display:" label is followed by a text input field containing "Deorphanpagemain". At the bottom, there are two radio buttons: "To a wiki page" (which is selected) and "To an external web page". In the bottom right corner, there are two buttons: "Cancel" and "Insert link".

Click on cancel button

Click on link icon

The screenshot shows the same "Insert link" dialog box. The "Target page or URL:" field is highlighted with a blue border, and the link icon is also highlighted with a blue border. The dropdown menu is no longer open. The "Text to display:" field contains "Deorphanpagemain". The radio buttons and buttons at the bottom remain the same.
